Experience fullstack engineer with 4 years of expertise in Javascript, TypeScript, and Node.js,Python. Skilled in database design, API integration, and server deployment. Passionate about building scalable and reliable software solutions.

EXPERIENCE

Backend developer (march 2022 - present)

Metridash-chennai, India

- Gathered and validated requirements as part of a collaboration for a progressive web application, which helped develop clear, unambiguous technical requirements and established a consistent feedback loop.
- Coordinated with 3 other teams to identify customer requirements, creating 16+ BRD and tech documents that streamlined development activities.
- Performed backend development of the high-profile external web app, resulting in 5 bug-free releases deployed promptly and within standards.
- Maintained newly developed and existing systems for a mission-critical external web app utilizing aws Functions, Docker, Kubernetes and Jenkins.
- Optimized legacy data storage and search query for the high-volume external web application, minimizing the average response time by 63%.

Backend Developer (january 2021 - february 2022)

Cholatek Technologies Limited

- Assisted in developing server-based Node.js software by providing inputs and insights, acquiring a 15% increase in the quality of overall work.
- Enhanced website responsiveness and 20% database cost savings by optimizing SQL queries for the system's high-load components.
- Integrated third-party services and APIs, such as payment gateways and SMS providers.
- Developed a scalable and fault-tolerant architecture employing AWS services including EC2, S3, and RDS, resulting in high platform availability and performance even during peak traffic hours.

Backend Developer, (march 2019 - september 2022)

Greatsome Innovation limited - Akure Ondo state

- Contributed to requirements analysis, High Level Design, Low Level Design, and complex code development for over 20 applications.
- Collaborated with external programmers to coordinate delivery of 6 new software applications.
- Collaborated with 3 engineering and design teams to integrate external APIs into web pages and applications. without bugs.
- Wrote unit tests to ensure 100% of code was within SDLC

SKILLS

Django
Node.js
TypeScript
Javascript
Mongodb
Mysql
Postgresql
Docker
Aws cloud service
Git
HTML
CSS
Kubernetes
Jenkins

OTHER SKILLS

Problem-solving
Analytical management
Time Management

EDUCATION

Landmark University

BSC, Computer Science

0mu-aran, Nigeria

LANGUAGES

English
